

3 AI Tools to Edit Photos Like a Pro

Instagram Reel DM Resource • Updated September 2026

How to use this resource

When someone comments “AI” or “PHOTO” on your Reel, send them this resource. It contains the three tools featured in the Reel and their official links.

1. Adobe Photoshop / AI Assistant

Best for: advanced photo editing, removing objects, changing backgrounds, generative edits and professional retouching.

Key AI features: Generative Fill, Generative Expand, Generate Background, Generative Upscale, Harmonize and AI Assistant.

Official link: <https://www.adobe.com/in/products/photoshop/online.html>

2. Adobe Firefly

Best for: prompt-based image editing and creative AI workflows.

Key features: Generative Fill, Generative Remove, Generative Expand, Generative Upscale and background removal.

Official link: <https://firefly.adobe.com/>

3. Photoroom

Best for: fast product photos, background removal and social-media-ready image edits.

Key features: AI background removal, object removal and image enhancement workflows.

Official link: <https://www.photoroom.com/>

DM message you can send

Here are the 3 AI photo-editing tools I mentioned in the Reel ■

1■■ Adobe Photoshop — <https://www.adobe.com/in/products/photoshop/online.html>

2■■ Adobe Firefly — <https://firefly.adobe.com/>

3■■ Photoroom — <https://www.photoroom.com/>

Save this list and try them out. ■

Note: Features and free/paid limits can change. Check each official website for the current availability and pricing.
